# Fat Loss is Easy!

---

Tired of the same old diets and exercise that require meal prepping, waking up 2 hours earlier, and green smoothies? How about those fat reduction treatments that have harsh side-effects, painful treatments, and require downtime or surgery? The 6d laser requires none of those things. This non-invasive body slimming laser makes fat loss easy by keeping treatments short, dieting irrelevant, and downtime non-existent! Imagine a laser treatment that you can squeeze into your lunch break ... that's 6d laser .

# WORKING PRINCIPLE

Irradiated by a specific wavelength of cold source laser, it targets the subcutaneous fat layer to temporarily damage the cell membrane of fat cells. The fat in the cells overflows into the intercellular substance and is metabolized out of the body by the human lymphatic system. The volume of fat cells is reduced to achieve self-cultivation. The effect of shaping.
